Systems

Worlds finest in Infra- Heating/ Cooling Systems Technology

Design, manufacture and marketing of
Thermodynamic Heating & Cooling Systems
for industry and households

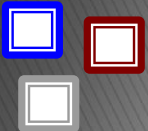

Thermo Climatic Systems of the Future

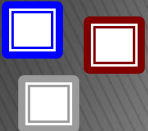

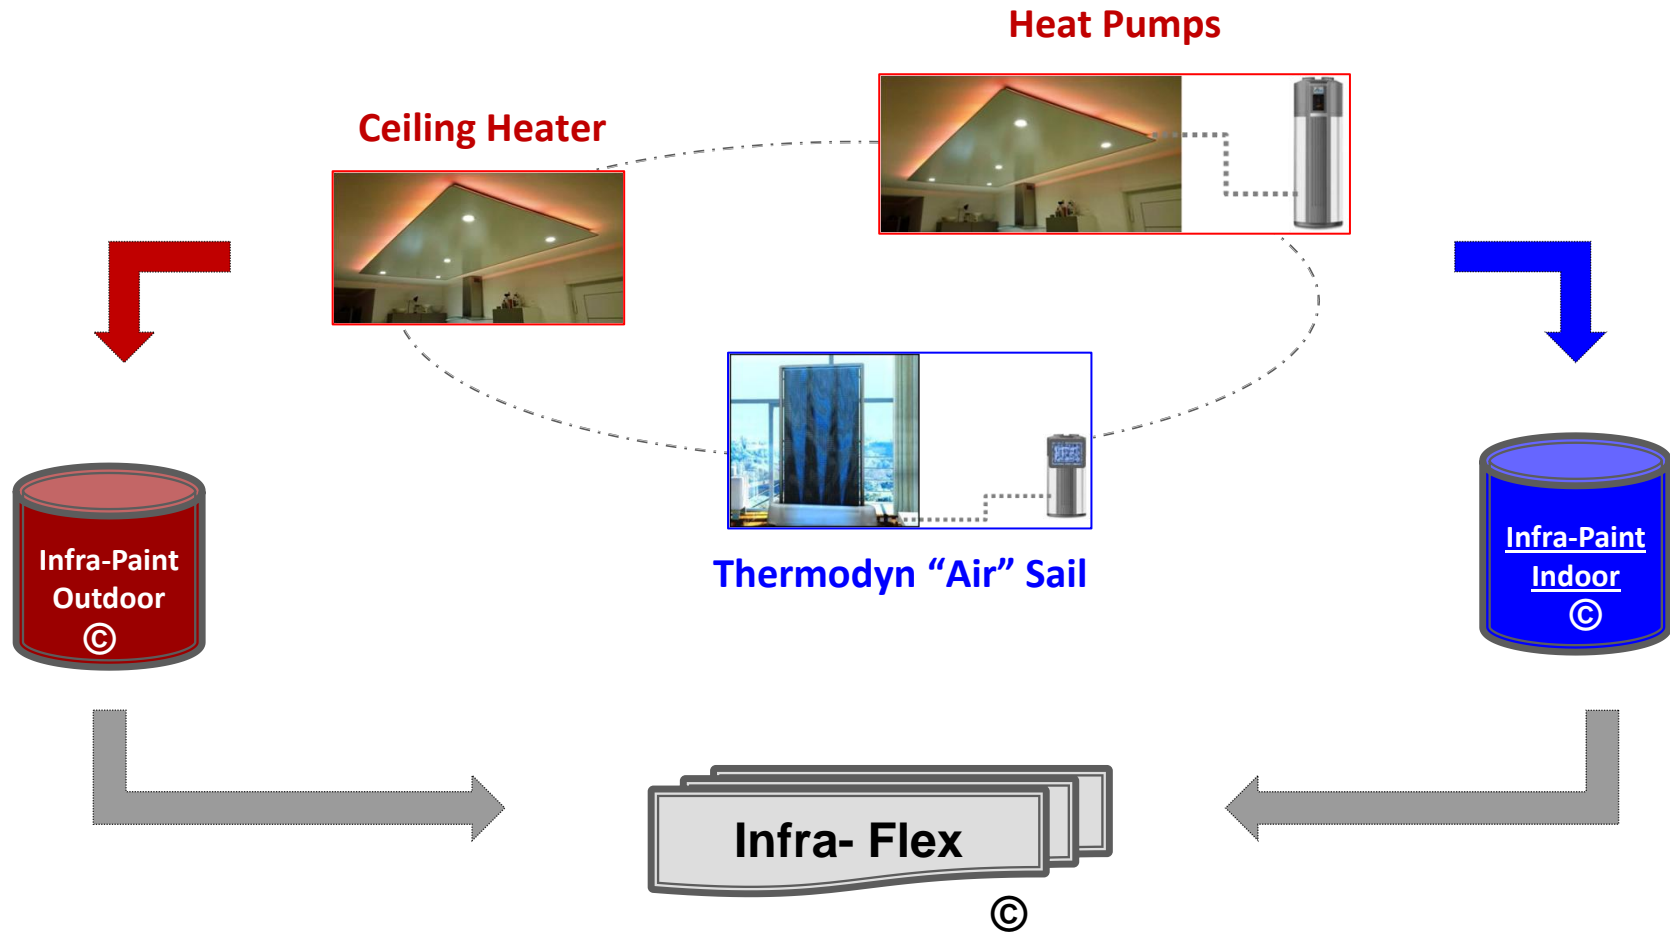

Infralight Ceiling Heater

Infralight Heat Pumps

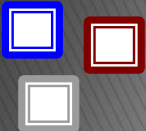

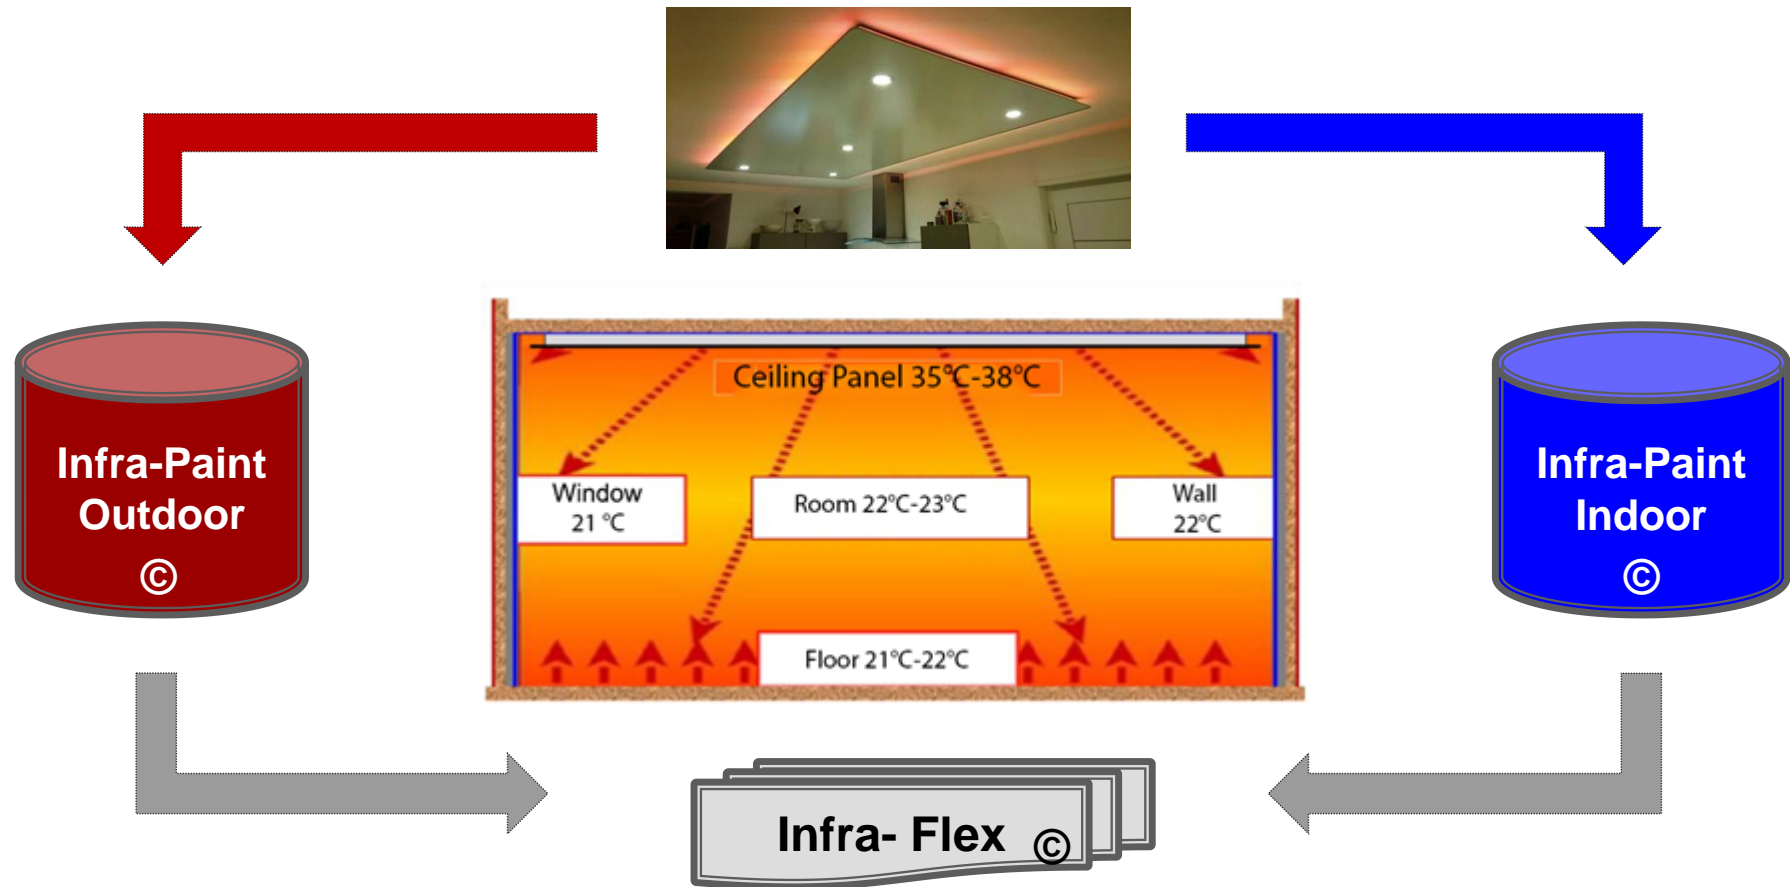

Thermodyn “Air” Sail

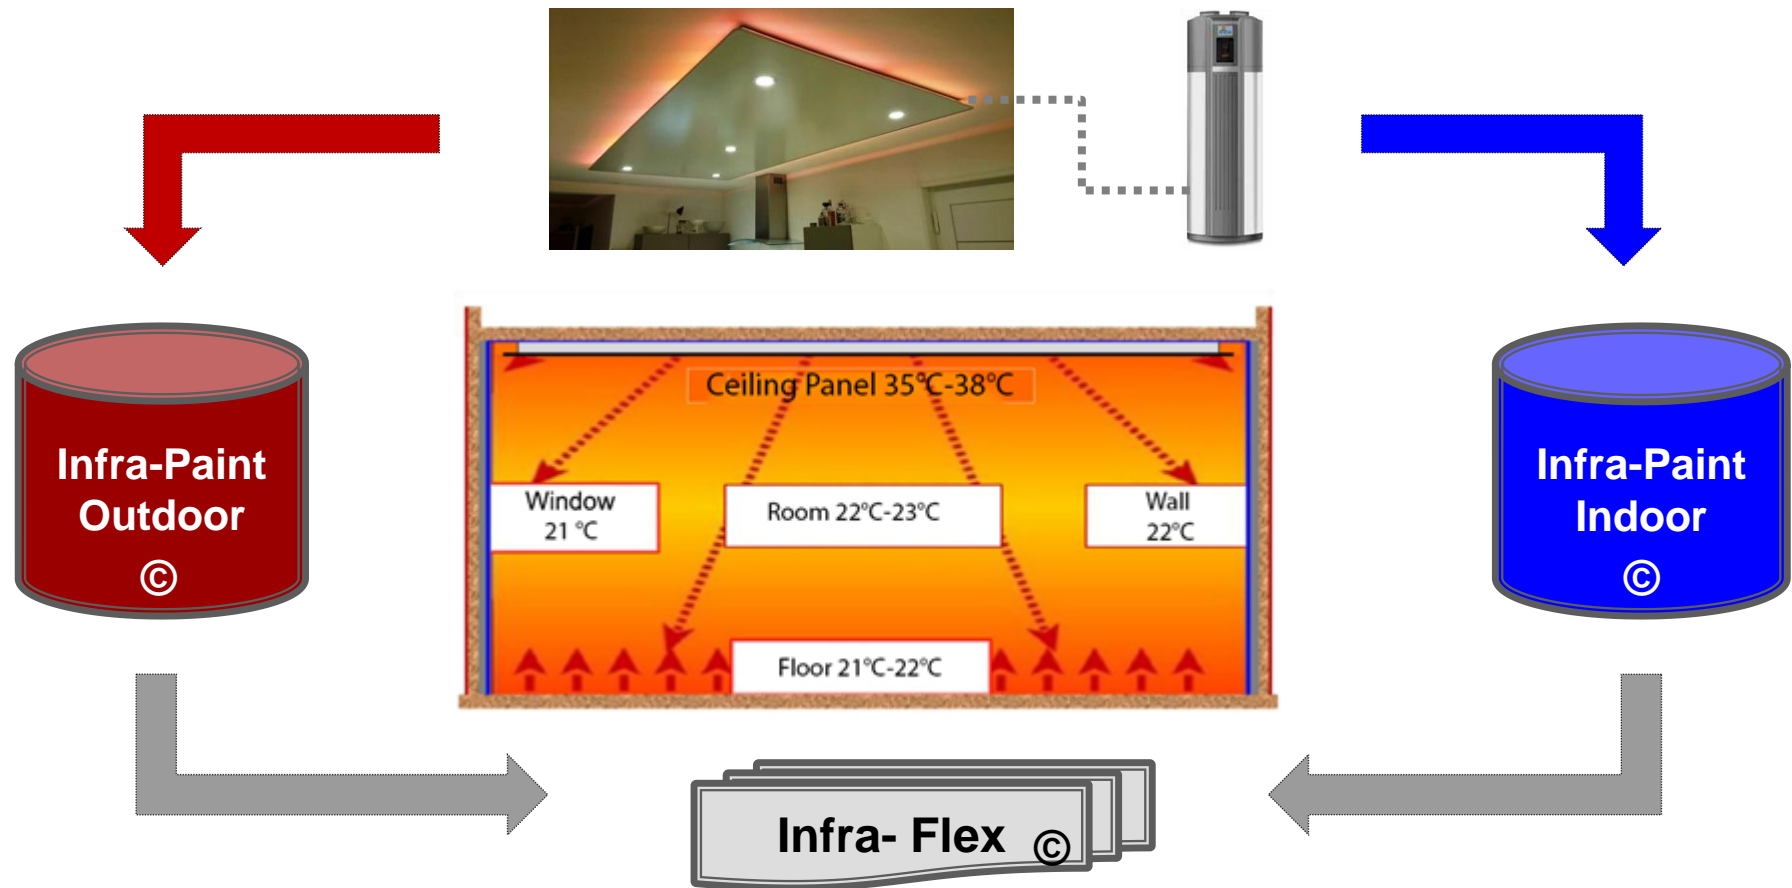

Thermo Climatic Systems of the Future

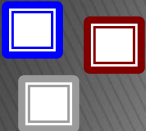

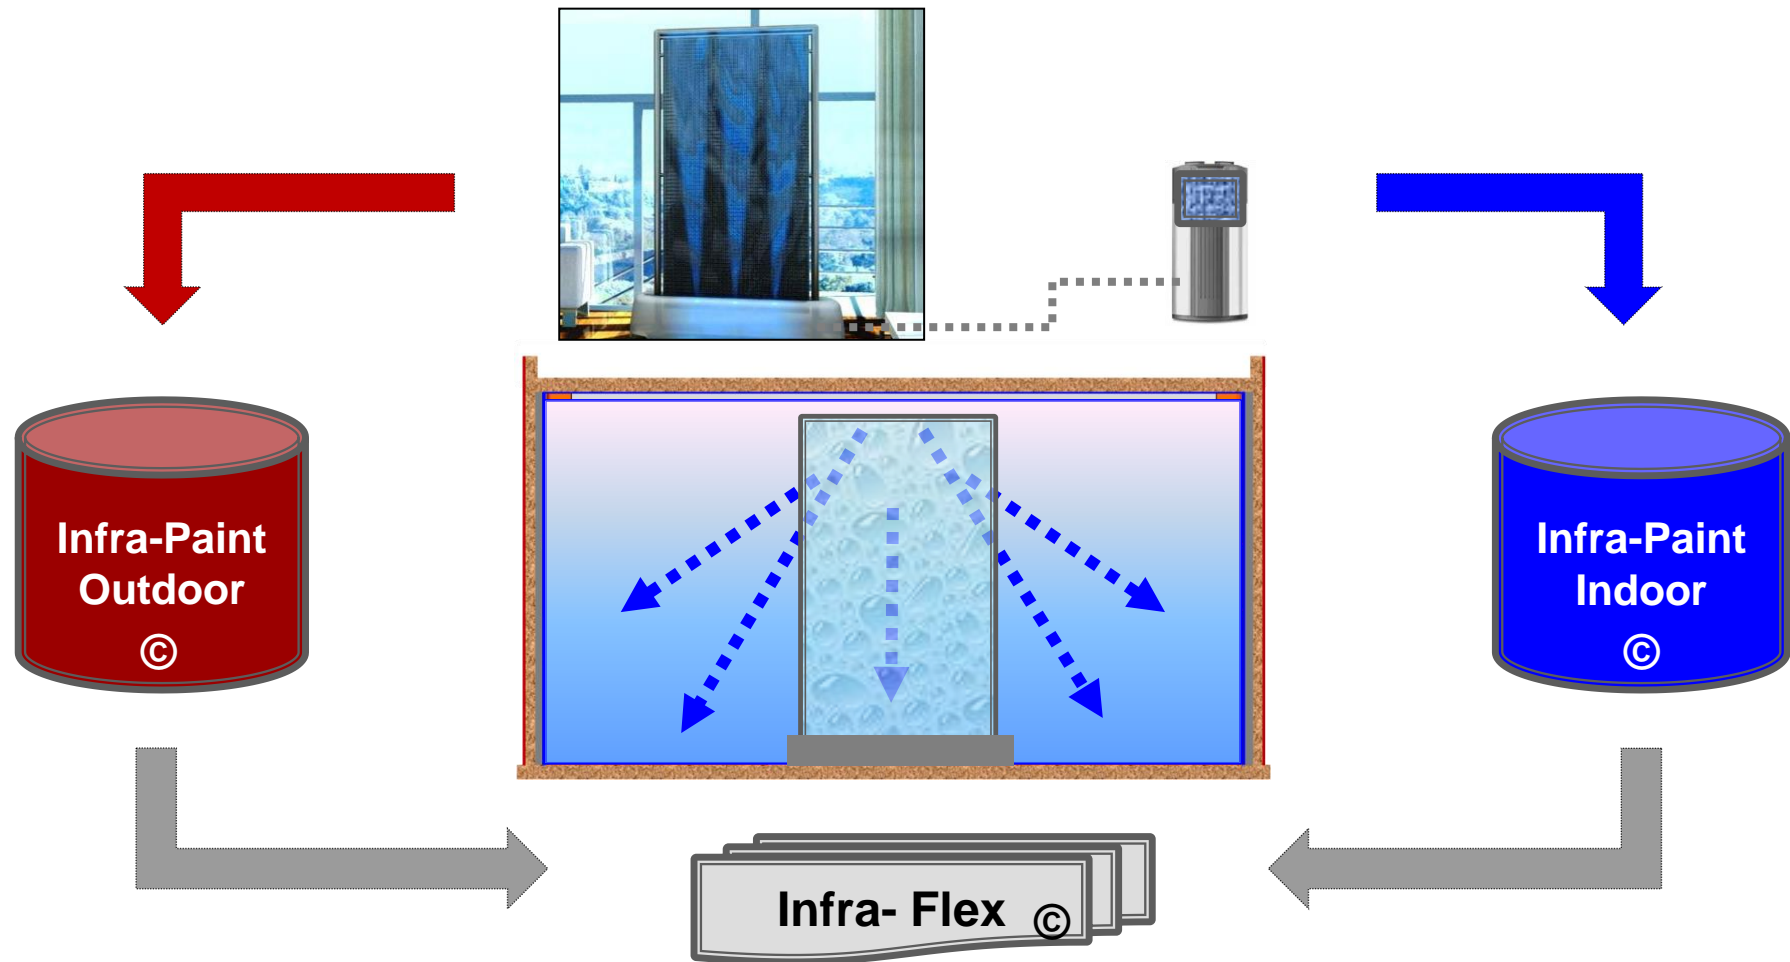

Infralight Ceiling Heater

Infralight Heat Pump Heater

Thermodyn “Air” Sail

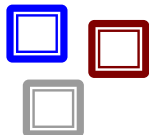

Infra- Heatschedule for Infralight Systems

Description	Product	Performace savings (estimated)	Total saving	Performance (calculated)	Performance (after saving)	Panel 560W
Convectional	Electric fireplace	0%	0%	6000 W	6000 W	
Heating IFL	Infralight	50%	50%	3000 W	3000 W	6
Heating Plus in	Infra-Paint-Indoor	5%	55%	150 W	2850 W	5,5
Heating Plus out	Infra-Paint-Outdoor	5%	55%	150 W	2850 W	5,5
Heating Comfort	Infra-Paint-In & Out	10%	60%	300 W	2700 W	5
Heating Reflex	Infra-Flex	15%	65%	450 W	2550 W	4,5
Heating Deluxe	Infralight- Paint-In/Out & Flex	25%	75%	750 W	2250 W	4

Note: When operating the Thermodyn "air" Sail, the colors Infra-Paint and the insulation film Infra-flex also have a very energy saving effect
